

MEDSTOCK[®]

**NON-STICK
PAD**

DRESSING

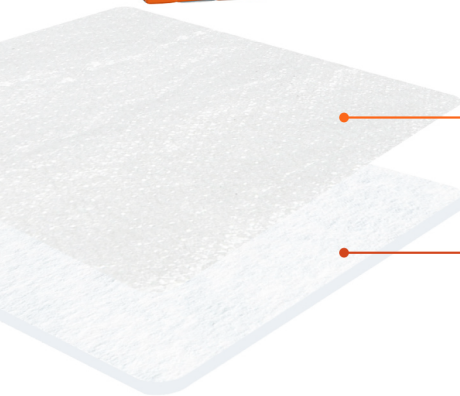

**ABSORBS UP TO 8 TIMES
ITS OWN WEIGHT**

Medstock Non-Stick Pad is an absorbent, non-adhesive dressing. It is made of a heat-laminated, porous film skin-contact layer and absorbent pad.

AVAILABLE IN 3 SIZES

Key Functions and Features

- + Soft, conformable, and comfortable to wear
- + Can be cut to the required shape and size of the wound
- + Provides protection for fragile tissue with its low-adherent properties

First layer: Heat laminated porous film

Second Layer: Absorbent pad made from 70% viscose and 30% polyester

General Advice on Safe Use

- + Ensure wound area is clean and dry before application
- + Dressing pad should overlap the wound by at least 2cm onto the dry surrounding skin
- + Can be left in place for up to 5 days depending on exudate level and type of wound
- + Can be used as a secondary dressing over hydrocolloid paste, alginate and other primary dressings
- + If necessary, the dressing can be cut to the required shape and size
- + Additional tape or other means of fixation is necessary to secure dressing

Indications for Use

- + Suitable for wounds with nil to mild exudate
- + Grazes, abrasions and superficial burns
- + Surgical wounds

Contraindications / Precautions

- + Seek medical advice immediately for all serious wounds and burns
- + If reddening or sensitisation occurs, discontinue use and consult a physician

Period of Validity

The product shall be valid for 5 years from the sterilisation date, provided that it is kept under the stipulated storage conditions

Storage Conditions

- + Store in a well-ventilated clean room at or below 35°C with relative humidity less than 80% and no corrosive gas

Packaging

- + Each dressing is packaged in a paper/poly closed pouch, then packed into our unique colour coded Medstock boxes

Care and Use Symbols

Read Instructions for use.
